Youth Sports App · Go-to-Market Lab

90-day strategy · AI agent architecture · ASO framework · Organic-first acquisition

PROPOSAL ASSET

$2.1B	465	$0	~$46
GLOBAL MARKET (2025)	PROJECTED 90-DAY INSTALLS	AD SPEND REQUIRED	MONTHLY AGENT COST

Key constraint: Apple's Kids Category guidelines (§1.3, §5.1.4) and COPPA restrict third-party ad SDKs and analytics for apps involving children's data. Your marketing strategy is organic by design, not just by budget.

COMPETITIVE LANDSCAPE

App	Type	Users	Pricing	Growth Model
TeamSnap	Incumbent	#1 in US	Free + $70–130/season	Brand + paid
Spond	Free disruptor	2M+ MAU	Free	Word of mouth
Heja	Community-first	500K+ teams	Free + Pro IAP	Organic
GameChanger	Stats/scoring	800K+ reviews	Free + subscription	DICK'S ownership
TeamLinkt	Free (ads)	500K+ MAU	Free (ad-supported)	83% direct traffic

THREE-PHASE PLAN

Weeks 1–4: Foundation
ASO overhaul · Brand voice · All 6 AI agents built and tested · Content calendar drafted

Weeks 5–8: Launch & Learn
Listings live · Blog + social active · Community outreach (40 leagues) · First webinar · A/B tests running

Weeks 9–13: Scale & Handoff
Agents tuned · Full documentation · Founder running solo at ≤4 hrs/week · 6-month roadmap delivered

AI AGENT ARCHITECTURE

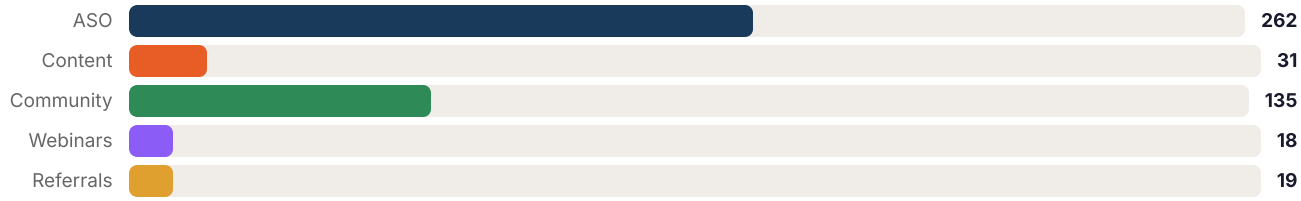

🎯 Coordinator	🔍 Research	✍️ Content	📱 ASO	📤 Distribution	📊 Analytics
Claude + Make	Claude + Apify	Claude + Zapier	Claude + ASC API	Make + Buffer	Claude + Sheets

Every output passes through a human approval gate. Estimated founder review time: ≤20 min/day. Total agent infrastructure: ~$46/month.

Youth Sports App · Go-to-Market Lab

Acquisition model · ASO framework · Success metrics · Measured vs. not measured

ACQUISITION MODEL (90 DAYS)

Total: 465 installs · $0 ad spend · 195 contractor hours · 39 content pieces · 6 league partnerships · 36 webinar attendees

ASO QUICK REFERENCE

iOS App Store

- Title (30 chars) — highest ranking weight
- Subtitle (30 chars) — rotate seasonally
- 100-char keyword field — comma-separated, no spaces
- iOS 26: AI reads screenshot text for ranking
- Seasonal rotation: football→basketball→baseball→camps

Google Play

- Title (30 chars) — highest ranking weight
- Long description (4K chars) — fully indexed like SEO
- Store Listing Experiments — native A/B testing
- Android Vitals (crash/ANR) suppress unstable apps
- Review volume + velocity matters for ranking

SUCCESS METRICS

KPI	Target (Day 90)	Source
App Store Impressions	300+/day	App Store Connect
Product Page Conversion	30%+	App Store Connect
Weekly Installs	50+/week by week 8	App Store Connect
Keyword Rankings (top 10)	5+ keywords	ASO tool
Blog Traffic	500 visits/week	Analytics
Content Approval Rate	80%+ first-pass	Agent logs
League Partnerships	6+ active	CRM
App Store Rating	4.6+ with 30+ new	App Store
Founder Weekly Time	≤4 hours/week	Time tracking
Agent Uptime	95%+	Make/Zapier logs

MEASURED VS. NOT MEASURED

✓ **Measured (public sources)**
Market size ($2.1B, CAGR 13.2%) · Competitor user counts and pricing · ASO ranking factors and character limits · COPPA/Kids Category rules · AI agent tooling costs (~$46/mo)

× **Not measured (model assumptions)**
All conversion rates in the funnel model · League partnership response rates · Webinar attendance · Referral rates · These are starting assumptions, replaced with real data at the week-8 checkpoint
